Experience

Edunet Foundation

Intern

Jan 2024 - Feb 2024

AI and cloud-based internships in education involve working on adaptive learning systems, AI tutoring tools, and data analysis, as well as supporting cloud-based learning management systems and collaborative tools. These roles are ideal for gaining experience with technologies that personalize learning and improve educational access.

Certification

- JavaScript for Beginners - MERN Stack (05/02/2024)
- Java Programming for Beginners - Java Full Stack (29/01/2024)

Projects

Simple Calculator | HTML/CSS, JavaScript

[Link to source code](#)

- Create a basic calculator using HTML, CSS, and JavaScript. The HTML structures the calculator with a display and buttons for digits and operations. CSS styles the layout JavaScript handles input performs calculations.

Personal Portfolio Website | HTML/CSS, React, Node, Express.js

[Link to source code](#)

- My portfolio, built with React and Express, dynamically showcases your projects and skills, featuring interactive links to your work and profiles.

Shopping Cart App | React, Node, Express.js

[Link to source code](#)

- My shopping cart app built with React allows users to add, remove, and view products with real-time updates. It demonstrates your skills in React components, state management, and styling.
